### **CIH Bank**

*Human Resources Department*

Casablanca, Morocco

### **Subject: Application for Cybersecurity Consultant Position (Fraud Entity)**

Dear Hiring Manager,

I am writing to express my strong interest in the Cybersecurity Consultant position within the Fraud Entity at CIH Bank. As a dedicated Cybersecurity Engineering student with specialized experience in threat detection, risk assessment, and fraud prevention systems, I am excited about the opportunity to contribute to CIH Bank's commitment to maintaining the highest standards of financial security and fraud prevention.

My academic background in Cybersecurity & Digital Trust at ENSET Mohammedia, combined with my practical experience in developing fraud detection systems, aligns perfectly with the requirements of this position. During my recent internship at Centre Hospitalier Universitaire Mohammed VI, I conducted comprehensive security risk assessments and developed mitigation strategies for critical infrastructure – experience that directly translates to identifying and mapping fraud risks in banking environments. Additionally, my work on the CyberThreatClassifier project involved creating machine learning algorithms

specifically designed to detect and classify various types of cyber threats, including those commonly associated with financial fraud.

What particularly draws me to CIH Bank is your reputation as a leading financial institution that prioritizes innovation and security. Your commitment to digital transformation while maintaining robust fraud prevention measures resonates with my professional values and career aspirations. I am especially excited about the opportunity to contribute to policy development and staff training initiatives, as my experience as a student representative has equipped me with strong communication and presentation skills essential for conducting awareness sessions and collaborating with cross-functional teams.

My technical certifications, including Cisco CyberOps Associate and Huawei HCIA-Security, demonstrate my commitment to staying current with industry best practices in cybersecurity and fraud prevention. Furthermore, my hands-on experience with intrusion detection systems, penetration testing, and security monitoring provides me with the analytical skills necessary to identify emerging fraud patterns and develop comprehensive risk mapping strategies. I am confident that my proactive approach, combined with my ability to handle sensitive information with the utmost discretion, makes me an ideal candidate for this role.

I would welcome the opportunity to discuss how my technical expertise, analytical capabilities, and passion for cybersecurity can contribute to strengthening CIH Bank's fraud prevention initiatives. I am available for an interview at your convenience and look forward to the possibility of joining your team in Casablanca.

Sincerely,

A handwritten signature in black ink, consisting of a stylized, sharp peak followed by a horizontal line and a small flourish.
